

Linear Array Speaker

LA-205M/LA-112M

LA-205M

LA-112M

Description:

The linear array speaker has a wide range of applications. It can be used with the professional amplifier and audio processor. It is suitable for large conference rooms, multi-function halls, banquet halls and so on.

Feature:

- * Quality plywood housing, small in size and light in weight, wear-resistant paint treatment.
- * Using two 5" mid-woofer units and a 1.3" tweeter driver, the sound is full of sensitivity.
- * Frequency divider in precise design can optimize the power response and the vocal MF performance.
- * The combination of hoisting installation and linear array design allows 0-10 degrees of adjustable coverage area of the speaker.
- * Professional hanger combination, simple hanging method, convenient engineering assembly.
